DECLARING SATURDAY, AUGUST 13, 1938, AS A SPECIAL  
NATIONAL HOLIDAY

Whereas the thirteenth day of August, nineteen hundred and thirty-eight, will be the fortieth anniversary of the occupation of Manila by American forces;

Whereas that day inaugurated in the world a new conception in the relationship between a sovereign country and a dependency;

Whereas during the space of forty years the relationship then conceived has been so nurtured that there has been developed in our beloved country a state which is now in its final stages of preparation to take its place among the sovereign nations of the world; and

Now, therefore, I, Manuel L. Quezon, President of the Philippines, do hereby proclaim the thirteenth day of August, nineteen hundred and thirty-eight, to be a special national holiday, the observance of which shall be a symbol of our esteem and gratitude.

To that end, a committee is hereby formed composed of the Secretary of the Interior, as Chairman, and the Chief of Staff of the Philippine Army and the Mayor of the City of Manila, as members, whose duty it shall be to make the necessary arrangements for an appropriate celebration of this memorable day, and I call upon all national provincial, and municipal officials and all public-spirited citizens and institutions of the Philippines to actively assist the committee herein created for the purpose.

**PROCLAMATION NO. 313**

PROCLAIMING OCTOBER THIRTY-FIRST TO NOVEMBER FIFTEENTH OF EVERY YEAR AS BOY SCOUTS ANNIVERSARY PERIOD THROUGHOUT THE PHILIPPINES.

For almost a decade the Boy Scouts Organization has been rendering, in an unobtrusive way, valuable service to the nation by cooperating with official and private charitable institutions in giving aid to the helpless and the needy. It has also supplemented the home, the school, and the church in the task of moulding the youth of the land into men of strong character and vigorous health. It has not only conscientiously sought to prepare its members for service to society, but has also materially contributed to the inculcation in the Filipino youth of the ideals of patriotism and citizenship.

The Boy Scouts Movement has enjoyed the support of both the Government and the people of the Philippines. The enactment by the National Assembly of Commonwealth Act Numbered One hundred eleven, incorporating the Boy Scouts of the Philippines, proves that the Government fully recognizes the value of the movement. The Filipino people as well as foreigners residing in our country have shown their appreciation of the work done by this organization through their wholehearted response to the National Building Fund Campaign successfully conducted by the Boy Scouts of the Philippines.

Nevertheless, much still remains to be done before the movement can meet the needs of the Boy Scouts adequately. The facilities at the disposal of the Boy Scouts Organization have thus far sufficed to train only a small portion of the boys of the country. The Philippines can never hope to attain her most cherished ideals unless a great majority, if not all, of her boys, the citizens of tomorrow, are given better opportunities than heretofore to prepare themselves for the duties and responsibilities of citizenship. We, as people, are committed to the ideals of democracy; we must insist that our young citizens be trained for citizenship in a democratic way. One of the effective means of carrying out this objective would be to encourage and support the Boy Scouts Movement in the Philippines. The plan, therefore, to hold a Boy Scouts Anniversary Period every year, for the purpose of bringing more emphatically to the attention of our people the value of scouting as an instrument of character development and citizenship training, should have the wholehearted support of the nation

Now, therefore, I, Manuel L. Quezon, President of the Philippines, do hereby proclaim the period from the thirty-first day of October, the Foundation Day of the Boy Scouts of the Philippines, to the fifteenth day of November, the Anniversary of the Commonwealth of the Philippines, as Boy Scouts Anniversary Period throughout the Philippines to be fittingly observed every year for the purpose of strengthening the work of the Boy Scouts of the Philippines.

I earnestly recommend that in every town where a scout troop has been organized an opportunity be given for every registered Scout on the evening of October thirty-first to recommit himself to the Scout Oath and Law.

In witness whereof, I have hereunto set my hand and caused the seal of the Commonwealth of the Philippines to be affixed.

Done at the City of Manila, this twenty-fourth day of August in the year of Our Lord, nineteen hundred and thirty-eight, and of the Commonwealth of the Philippines, the third.

**PROCLAMATION NO. 332**

PRESCRIBING THE CONDUCT THAT SHOULD BE OBSERVED BY OFFICIALS AND EMPLOYEES CHARGED WITH THE DUTY OF ENFORCING THE ELECTION LAW, ESPECIALLY THE ELECTION INSPECTORS, WITH A VIEW TO INSURING ORDERLY AND CLEAN ELECTIONS.

The essence of representative democracy is the rule by the people through their chosen officials. It is, therefore, of primary importance that the elections be orderly and clean so as to insure a free and genuine expression of the will of the electorate.

The Election Law offers effective safeguards against corrupt practices in the election of public officials, but the effectiveness of these safeguards depends largely upon the impartiality and honesty of the officials who are charged with responsibilities connected with the execution of the law.

Upon the Election Inspectors devolves the greater part of the burden of such responsibilities. Although the Election Inspectors are appointed upon nominations submitted by the majority and minority parties, they are, nevertheless, public officers sitting as judges of elections, with well-defined legal powers and duties. They owe allegiance not so much to the party which has chosen them, as to the people at large whose right to express their will it is their duty to protect.

Democracy becomes a farce when elections do not mean a free vote and an honest count of the ballots. Under the Constitution it is my duty to preserve our democratic system of government.

Now, therefore, I, MANUEL L. QUEZON, President of the Philippines, do hereby announce that it is my determination that the elections in the Philippines shall be free from frauds and that I shall hold every official and employee of the national and local governments strictly accountable for his conduct relating to elections. The public interest is above any partisan consideration. The rights of all, including those of the minority parties, should be adequately protected.

I call upon each and every official and employee charged with the duty of carrying out the Election Law, especially upon the Election Inspectors, irrespective of the parties to which they may belong, to be loyal to their trust and to perform their respective duties in accordance with the law. I invite special attention to the provisions of Article III of the Election Code (Commonwealth Act No. 357) which prohibits certain corrupt practices and of section 687 of the Administrative Code, as amended by Commonwealth Act No.

177, which prohibits officers and employees in the civil service, including members of the armed forces, whether classified or unclassified, permanent or temporary, except those holding elective positions, from engaging directly or indirectly in any partisan activity.

The Government shall prosecute every violation of the Election Law, and no one, especially Election Inspectors, who may be found guilty, will receive executive clemency.

In witness whereof, I have hereunto set my hand and caused the seal of the Commonwealth of the Philippines to be affixed.

Done at the City of Manila, this 18th day of October, in the year of Our Lord, nineteen hundred and thirty-eight, and of the Commonwealth of the Philippines, the third.

REDUCING DURING A CERTAIN PERIOD THE IMPORT DUTY ON  
HUSKED RICE TO THREE CENTAVOS PER KILO

Having found after due investigation that there is now a scarcity of the local supply of rice, requiring the importation of this cereal, and considering that with a reasonable reduction in the duty now being collected upon all importations of this staple product, the actual local price thereof would be reduced to a level which will not be injurious to the interests of the Filipino farmers as the native supply is now practically exhausted; and inasmuch as such a reduction would benefit the public, particularly the consumers, I, Manuel L. Quezon, President of the Philippines, by virtue of the powers conferred upon me by the Constitution and by section three of Act Numbered Thirty-nine hundred and eighteen, entitled "An Act amending paragraphs two hundred and fifteen and two hundred and seventeen of the Act of Congress of August fifth, nineteen hundred and nine", do hereby reduce the duty on imported rice to one dollar and fifty cents (three pesos) for every one hundred kilos, gross weight, of husked rice, effective on the date of this proclamation and up to November fifteenth, nineteen hundred and thirty-eight

DESIGNATING THURSDAY, THE 24TH OF NOVEMBER, 1938, AS A  
DAY OF NATIONAL THANKSGIVING

For the information and careful consideration of the people of the Philippines, I hereby publish the following proclamation of the President of the United States setting aside in accordance with custom, Thursday, November twenty-fourth, nineteen hundred and thirty-eight, as a day of general thanksgiving:

“BY THE PRESIDENT OF THE UNITED STATES OF  
AMERICA

“A PROCLAMATION

“THANKSGIVING DAY—1938

“I, Franklin D. Roosevelt, President of the United States of America, do hereby designate Thursday, the twenty-fourth of November, 1938, as a day of general thanksgiving.

“Our fathers set aside such a day as they hewed a nation from the primeval forest. The observance was consecrated when George Washington issued a Thanksgiving proclamation in the first year of his presidency. Abraham Lincoln set apart ‘a day of thanksgiving and praise to our beneficent Father who dwelleth in the heavens.’

“Thus from our earliest recorded history, Americans have thanked God for their blessings. In our deepest natures, in our very souls, and, like all mankind since the earliest origin of mankind, turn to God in time of trouble and in time of happiness. ‘In God we trust.’

“For the blessings which have been ours during the present year we have ample cause to be thankful.

“Our lands have yielded a goodly harvest, and the toiler in shop and mill receives a more just return for his labor.

“We have cherished and preserved our democracy.

“We have lived in peace and understanding with our neighbors and have seen the world escape the impending disaster of a general war.

“In the time of our fortune it is fitting that we offer prayers for unfortunate people in other lands who are in dire distress at this our thanksgiving season.

“Let us remember them in our families and our churches when, on the day appointed, we offer our thanks to Almighty God. May we by our way of living merit the continuance of His goodness.

“In witness whereof, I have hereunto set my hand and cause the seal of the United States of America to be affixed.

“Done at the City of Washington this nineteenth day of November, in the year of our Lord nineteen hundred and thirty-eight, and of the independence of the United States of America the one hundred and sixty-third.

the

President:  
HULL

In line with the proclamation above quoted, I do hereby proclaim Thursday, the twenty-fourth day of November, nineteen hundred and thirty-eight, as a day of thanksgiving in the Philippines. The Filipino people are fortunate in having completed successfully one more year under the Commonwealth without the country having suffered from any disaster or calamity of widespread proportion and with peace, order, and well-being prevalent everywhere. I, therefore call upon all the inhabitants of the Philippines to turn their thoughts and actions on this day towards Almighty

God offer a prayer of thanks to Him for the bountiful blessings that have been vouchsafed to us during the past year. May God in His infinite goodness continue to shower His infinite goodness continue to shower His blessings not only on our people but also on the poor and unfortunate people in other lands.

In witness whereof, I have hereunto set my hand and caused the seal of the Commonwealth of the Philippines to be affixed.

Done at the City of Manila, this twenty-second day of November, in the year of Our Lord, nineteen hundred and thirty-eight, and of the Commonwealth of the Philippines, the fourth.

DESIGNATING THE PERIOD FROM MAY 4TH TO MAY 13TH, INCLUSIVE, AS NATIONAL DEFENSE WEEK

Whereas a mobilization for ten days active duty training, beginning May fourth, has been ordered for those Reserve units of the Philippine Army comprising graduates of the nineteen hundred and thirty -seven series of training cadres; and

Whereas the military efficiency of the Reserve formations of the Philippine Army is one of the principal supports upon which rests the future security of the nation;

Now, therefore, I, Manuel L. It is of special importance that officers and soldiers called upon to perform this public service be assured of protection against unnecessary or useless sacrifice. Specifically, and in accordance with law, no Government employee shall be deprived either of his civil position or of his pay because of necessary absence in carrying out this duty. Moreover, I expressly urge all employers in the Philippines, whether they be individuals or corporations, to follow this example of the Government, thus contributing to the success of the national defense program and establishing a claim upon the gratitude of the Filipino people.

REDUCING DURING A CERTAIN PERIOD THE IMPORT DUTY ON HUSKED NON-GLUTINOUS RICE  
FROM 5 TO 4 CENTAVOS PER KILO.

Having found after due investigation that, because of the crop shortage, the prevailing price of native rice has risen to levels higher than those of the same period during the last three years, which, if not checked at once may bring distress to the people; and considering that a reasonable reduction in the duty now being levied on imported rice will make it possible to control the price of rice within reasonable levels, without harming the interests of palay producers; and as such a reduction will redound to the benefit of the public, particularly the consumers, I, Manuel L. Quezon, President of the Philippines, by virtue of the powers conferred upon me by the Constitution and by section three of Act Numbered Thirty-nine hundred eighteen entitled "An Act amending paragraphs two hundred and fifteen and two hundred and seventeen of the Act of Congress of August fifth, nineteen hundred and nine," do hereby, upon recommendation of the Secretary of Finance, reduce the import duty on rice to two dollars (four pesos) for every one hundred kilos, gross weight, of husked non-glutinous rice, effective on the date of this proclamation up to April seventh, nineteen hundred and thirty-nine.

In witness whereof, I have hereunto set my hand and caused the seal of the Commonwealth of the Philippines to be affixed.

Done at the City of Manila, this twenty-ninth day of March, in the year of Our Lord, nineteen hundred and thirty-nine, and of the Commonwealth of the Philippines, the fourth.

DECLARING SATURDAY, APRIL 8, 1930, A SPECIAL PUBLIC HOLIDAY

A petition has been received from and on behalf of the associated banks in Manila, requesting that the eighth day of April, nineteen hundred and thirty-nine, be declared an official holiday. The banking houses have agreed that negotiable papers which would fall due on the eighth day of April, nineteen hundred and thirty-nine, if the same were not a holiday, shall not be protested until the sunset of the following Monday, April tenth, nineteen hundred and thirty-nine.

It appearing to the Chief Executive that, inasmuch as the sixth and seventh days of April, nineteen hundred and thirty-nine, are public holidays, the eighth day of April, nineteen hundred and thirty-nine, can be declared a special public holiday to the great advantage of the banking houses and no disadvantage will result to the public in general;

Now, therefore, I, Manuel L. Quezon, President of the Philippines, by virtue of the authority in me vested by section thirty of the Revised Administrative Code, and there being in my judgment sufficient reasons therefor, do hereby proclaim Saturday, April eighth, nineteen hundred and thirty-nine, as a special public holiday.

In witness whereof, I have hereunto set my hand and caused the seal of the Commonwealth of the Philippines to be affixed.

Done at the City of Manila, this twenty-ninth day of March, in the year of Our Lord, nineteen hundred and thirty-nine, and of the Commonwealth of the Philippines, the fourth.

REDUCING DURING A CERTAIN PERIOD THE IMPORT DUTY ON HUSKED NON-GLUTINOUS RICE FROM 5 TO 4 CENTAVOS PER KILO.

Having found after due investigation that, because of the crop shortage, the prevailing price of native rice has risen to higher levels which, if not checked at once, may bring distress to the people; and considering that a reasonable reduction in the duty now being levied on imported rice will make it possible to control the price of rice within reasonable levels, without harming the interests of palay producers; and as such a reduction will redound to the benefit of the public, particularly the consumers, I, Manuel L. Quezon President of the Philippines, by virtue of the powers conferred upon me by the Constitution and by section three of Act Numbered Thirty-nine hundred and eighteen entitled "An Act amending paragraphs two hundred and fifteen and two hundred and seventeen of the Act of Congress of August fifth, nineteen hundred and nine," do hereby, upon recommendation of the Secretary of Finance, reduce the import duty on rice to two dollars (four pesos) for every one hundred kilos, gross weight, of husked non-glutinous rice, effective on the date of this proclamation up to May tenth, nineteen hundred and thirty-nine.

In witness whereof, I have hereunto set my hand and caused the seal of the Commonwealth of the Philippines to be affixed.

SETTING ASIDE A SPECIAL DAY IN EACH COMMUNITY FOR THE CELEBRATION OF RICE PLANTING DAY

By virtue of the powers vested in me by law, I, Manuel L. Quezon, President of the Philippines, do hereby order all municipal councils to set aside one day during the rice planting season in each community, the same to be designated as Rice Planting Day, and enjoin all the inhabitants of the localities concerned to observe this day with appropriate ceremonies and festivities.

It is fitting that a day be set aside each year for the purpose of focusing the attention of the Filipino people on the importance of rice production and the need of making the country self-sufficient in that article of prime necessity. It should also serve to add dignity to labor on the fields, to stimulate interest in agriculture, and to have a better understanding of our agrarian problems.

Moreover, it is in keeping with our traditions that we have a special day to invoke the bounty and the goodness of Divine Providence in order that we may be blessed with those climatic and other conditions that should result in a fruitful and abundant harvest.

Provincial and municipal officials as well as teachers and other school authorities are hereby instructed to participate actively and to lend their cooperation in the celebration of Rice Planting Day.

In witness whereof, I have hereunto set my hand and caused the seal of the Commonwealth of the Philippines to be affixed.

**PROCLAMATION NO. 405**

EXPRESSING THE THANKS AND APPRECIATION OF THE COMMONWEALTH GOVERNMENT AND OF THE FILIPINO PEOPLE TO EVERY PARTICIPANT IN THE RECENT ARMY MOBILIZATION.

Whereas the first training mobilization of the Philippine Army has just been completed with a record of success that evidences the growing efficiency of the Army and inspires increased public confidence in the soldierly virtues of our trained reservists;

Whereas the mobilization which initiated integration of the Class of Nineteen hundred and thirty-seven into the fighting units known as divisions marked the beginning of the second distinct phase of the military evolution of our national defense; and

Whereas the twenty-five thousand reservists that answered the Government's call did so without financial inducement or reward and without regard for personal sacrifice, thus demonstrating again their instant readiness to cooperate with the Government in the attainment of the ultimate objectives of our defense program, a national future of strength and security, and setting before the Filipino people a shining example of stalwart patriotism and devotion to duty;

Now, therefore, I, Manuel L. Quezon, President of the Philippines, do hereby express and proclaim to every participant in that mobilization the thanks and appreciation of the Commonwealth Government and of the Filipino people.

I hereby direct that a copy of this proclamation be furnished by the Chief of Staff of the Philippine Army to every individual who participated honorably in the mobilization of May fourth to May thirteenth, nineteen hundred and thirty-nine

**PROCLAMATION NO. 409**

DECLARING THE PERIOD BETWEEN INDEPENDENCE DAY, JULY 4, AND JULY 31, 1939, AS THE TIME FOR THE FOURTH COMMONWEALTH ROLL CALL OF THE RED CROSS IN THE PHILIPPINES.

Pursuant to the powers vested in me by law, I, Manuel L. Quezon, President of the Philippines, do hereby declare the period between Independence Day, July fourth, and July thirty-first, nineteen hundred and thirty-nine, the time for the Fourth Commonwealth Roll Call of the Red Cross in the Philippines.

The need for the Red Cross in the Philippines and in other nations is emphasized by the critical time through which the world is passing. The original and principal objectives for which this great international organization was established are: to provide for the amelioration of the condition of soldiers wounded upon the fields of battle and of civilians who are the unhappy victims of warfare; to neutralize and protect persons engaged in giving such relief, and to furnish supplies for these purposes; to carry on a system of relief in time of peace, and to apply the same for the mitigation of suffering caused by pestilence, famine, fire, flood, and other calamities.

In addition to these original and primary objectives, the Philippine Red Cross conducts a daily program of practical service to the people in all parts of the Archipelago. The record of such service during the past year justifies the appreciation and support of our people.

It is the desire of the Government to encourage and support all efforts to develop the Philippine Red Cross as a volunteer agency through which our citizens can do their part in fulfilling the purposes for which the Red Cross has been established throughout the world.

I, therefore, call upon all citizens and residents of the Philippines, our business interests, all national, provincial, and municipal officials, the clergy, all the teachers in public and private schools, and other public-spirited individuals and institutions, to actively assist in the organization and conduct of the Roll Call, and to give generous and special support this year in order that the Red Cross may be able to meet all its obligations and responsibilities.

In witness whereof, I have hereunto set my hand and caused the seal of the Commonwealth of the Philippines to be affixed.

Done at the City of Manila, this eighth day of June, in the year of Our Lord, nineteen hundred and thirty-nine, and of the Commonwealth of the Philippines, the fourth.

**PROCLAMATION NO. 418**

REDUCING DURING A CERTAIN PERIOD THE IMPORT DUTY ON HUSKED NON-GLUTINOUS RICE FROM 5 TO 4 CENTAVOS PER KILO.

Having found after due investigation that, because of the crop shortage, the prevailing price of native rice has risen to higher levels which, if not checked at once, may bring distress to the people; and considering that a reasonable reduction in the duty now being levied on imported rice will make it possible to control the price of rice within reasonable levels, without harming the interests of palay producers; and as such a reduction will redound to the benefit of the public, particularly the consumers, I, Manuel L. Quezon, President of the Philippines, by virtue of the powers conferred upon me by the Constitution and by section three of Act Numbered Thirty-nine hundred and eighteen entitled "An Act amending paragraphs two hundred and fifteen and two hundred and seventeen of the Act of Congress of August fifth, nineteen hundred and nine," and upon recommendation of the Secretary of Finance, do hereby reduce the import duty on rice to two dollars (four pesos) for every one hundred kilos, gross weight, of husked non-glutinous rice, effective on the date of this proclamation up to July fourteenth, nineteen hundred and thirty-nine.

In witness whereof, I have hereunto set my hand and caused the seal of the Commonwealth of the Philippines to be affixed.

Done at the City of Manila, this thirteenth day of July, in the year of Our Lord, nineteen hundred and thirty-nine, and of the Commonwealth of the Philippines, the fourth.

REDUCING DURING A CERTAIN PERIOD THE IMPORT DUTY ON HUSKED NON-GLUTINOUS RICE FROM 5 TO 4 CENTAVOS PER KILO.

Having found after due investigation that, because of the crop shortage, the prevailing price of native rice has risen to higher levels which, if not checked at once, may bring distress to the people; and considering that a reasonable reduction in the duty now being levied on imported rice will make it possible to control the price of rice within reasonable levels, without harming the interests of palay producers; and as such a reduction will redound to the benefit of the public particularly the consumers, I, Manuel L. Quezon, President of the Philippines, by virtue of the powers conferred upon me by the Constitution and by section three of Act Numbered Thirty-nine hundred and eighteen entitled "An Act amending paragraphs two hundred and fifteen and two hundred and seventeen of the Act of Congress of August fifth, nineteen hundred and nine," and upon recommendation of the Secretary of Finance, do hereby reduce the import duty on rice to two dollars (four pesos) for every one hundred kilos, gross weight, of husked non-glutinous rice, effective on the date of this proclamation up to September seventh, nineteen hundred and thirty-nine.

In witness whereof, I have hereunto set my hand and caused the seal of the Commonwealth of the Philippines to be affixed.

PUBLISHING THE NEUTRALITY PROCLAMATION OF THE PRESIDENT OF THE UNITED STATES,  
DATED SEPTEMBER 5, 1939

Whereas the President of the United States did, on the fifth day of September, nineteen hundred and thirty-nine, issue the following proclamation:

“BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

“A PROCLAMATION

“Whereas a state of war unhappily exists between Germany and France; Poland; and the United Kingdom, India, Australia, and New Zealand;

“And whereas the United States is on terms of friendship and amity with the contending powers, and with the persons inhabiting their several dominions;

“And whereas there are nationals of the United States residing within the territories of dominions of each of the said belligerents and carrying on commerce, trade, or other business or pursuits therein;

“And whereas there are nationals of each of the said belligerents residing within the territory or jurisdiction of the United States and carrying on commerce, trade, or other business or pursuits therein;

“And whereas the laws and treaties of the United States, without interfering with the free expression of opinion and sympathy, nevertheless impose upon all persons who may be within their territory and jurisdiction the duty of an impartial neutrality during the existence of the contest;

“And whereas it is the duty of a neutral government not to permit or suffer the makings of its territory or territorial waters subservient to the purposes of war;

“Now, therefore, I, Franklin D. Roosevelt, President of the United States of America, in order to preserve the neutrality of the United States and of its citizens and of persons within its territory and jurisdiction, and to enforce its laws and treaties, and in order that all persons, being warned of the general tenor of the laws and treaties of the United States in this behalf, and of the law of nations, may thus be prevented from any violation of the same, do hereby declare and proclaim that by certain provisions of the Act approved on the fourth day of March, A. D. 1909, commonly known as the ‘Penal Code of the United States,’ and of the Act approved on the fifteenth day of June, A. D. 1917, the following acts are forbidden to be done, under severe penalties, within the territory and jurisdiction of the United States, to wit:

“1. Accepting and exercising a commission to serve one of the said belligerents by land or by sea against an opposing belligerent.

“2. Enlisting or entering into the service of a belligerent as a soldier, or as a marine, or seaman on board of any ship of war, letter of marque, or privateer.

“3. Hiring or retaining another person to enlist or enter himself in the service of a belligerent as a soldier, or as a marine, or seaman on board of any ship of war, letter of marque, or privateer.

“4. Hiring another person to go beyond the limits or jurisdiction of the United States with intent to be enlisted as aforesaid.

“5. Hiring another person to go beyond the limits of jurisdiction of the United States with intent to be entered into service as aforesaid.

“6. Retaining another person to go beyond the limits or jurisdiction of the United States \_to\_be\_enlisted as aforesaid.

“7. Retaining another person to go beyond the limits or jurisdiction of the United States with intent to be entered into service as aforesaid. (But the said Act of the fourth day of March, A. D. 1909, as amended by the Act of the fifteenth day of June, A. D. 1917, is not to be construed to extend to a citizen or subject of a belligerent who, being transiently within the jurisdiction of the United States, shall, on board of any ship of war, which at the time of its arrival within the jurisdiction of the United States, was fitted and equipped as such ship of war, enlist or enter himself or hire or retain another subject or citizen of the same belligerent, who is transiently within the jurisdiction of the United States to enlist or enter himself to serve such belligerent on board such ship of war, if the United States shall then be at peace with such belligerent.)

“8. Fitting out and arming, or accepting to fit out and arm, or procuring to be fitted out and armed, or knowingly being concerned in the furnishing, fitting out, or arming of any ship or vessel with intent that such ship or vessel shall be employed in the service of one of the said belligerents to cruise or commit hostilities against the subjects, citizens or property of an opposing belligerent.

“9. Issuing or delivering a commission within the territory or jurisdiction of the United States for any ship or vessel to the intent that she may be employed as aforesaid.

“10. Increasing or augmenting, or procuring to be increased or augmented, or knowingly being concerned in increasing or augmenting, the force of any ship of war, cruiser, or other armed vessel, which at the time of her arrival within the jurisdiction of the United States was a ship of war, cruiser, or armed vessel in the service of a belligerent, or belonging to a national thereof, by adding to the number of guns of such vessel, or by changing those on board of her for guns of a larger caliber, or by the addition thereto of any equipment solely applicable to war.

“11. Knowingly beginning or setting on foot or providing or preparing a means for or furnishing the money for or taking part in any military or naval expedition or enterprise to be carried on from the territory or jurisdiction of the United States against the territory or dominion of a belligerent.

“12. Despatching from the United States, or any place subject to the jurisdiction thereof, any vessel, domestic or foreign, which is about to carry to a warship, tender or supply ship of a belligerent fuel, arms, ammunition, men, supplies, despatches or information shipped or received on board \_within the jurisdiction of the United States.

“13. Despatching from the United States or any place subject to the jurisdiction thereof, any armed vessel owned wholly or in part by American citizens, or any vessel, domestic or foreign (other than one which has entered the \_jurisdiction of the United States as a public vessel) which is manifestly built for warfare purposes or has been converted or adapted from a private vessel to one suitable for warfare use, and which is to be employed to cruise against or commit or attempt to commit hostilities upon the subjects, citizens, or property of a belligerent nation, or which will be sold or delivered to a belligerent nation, or to an agent, officer, or citizen thereof, within the jurisdiction of the United States, having left that jurisdiction, upon the high seas.

“14. Despatching from the United States, or any place subject to the jurisdiction thereof, any vessel built, armed, or equipped as a ship of war, or converted from a private vessel into a ship of war (other than one which has entered the jurisdiction of the United States as a public vessel) with any intent or under any agreement or contract, written or

oral, that such vessel shall be delivered to a belligerent nation, or to any agent, officer, or citizen of such nation, or where there is reasonable cause to believe that the said vessel shall or will be employed in the service of such belligerent nation after its departure from the jurisdiction of the United States.

“15. Taking, or attempting or conspiring to take, or authorizing the taking of any vessel out of port or from the jurisdiction of the United States in violation of the said Act of the fifteenth day of June, A. D. 1917, as set forth in the preceding paragraph numbered 11 to 14, inclusive.

“16. Leaving or attempting to leave the jurisdiction of the United States by a person belonging to the armed land or naval forces of a belligerent who shall have been interned within the jurisdiction of the United States in accordance with the law of nations, or leaving or attempting to leave the limits of internment in which freedom of movement has been allowed, without permission from the proper official of the United States in charge, or wilfully overstaying a leave of absence granted by such official.

“17. Aiding or enticing any interned person to escape or attempt to escape from the jurisdiction of the United States or from the limits of internment prescribed.

“And I do hereby further declare and proclaim that any frequenting and use of the waters within the territorial jurisdiction of the United States by the vessels of a belligerent, whether public ships or privateers, for the purpose of preparing for hostile operations, or as posts of observation upon the ships of war or privateers or merchant vessels of an opposing belligerent, must be regarded as unfriendly and offensive, and in violation of that neutrality which it is the determination of this Government to observe; and to the end that the hazard and inconvenience of such apprehended practices may be avoided, I further proclaim and declare that from and after the fifth day of September instant, and so long as this proclamation shall be in effect, no ship of war or privateer of any belligerent shall be permitted to make use of any port, harbor, roadstead, or waters subject to the jurisdiction of the United States as a station or place of resort for any warlike purpose or for the purpose of obtaining warlike equipment. No privateer of a belligerent shall be permitted to depart from any port, harbor, roadstead, or waters subject to the jurisdiction of the United States, and no ship of war of a belligerent shall be permitted to sail out of or leave any port, harbor, roadstead, or waters subject to the jurisdiction of the United States from which a vessel of an opposing belligerent (whether the same shall be a ship of war or a merchant ship) shall have previously departed, until after the expiration of at least twenty-four hours from the departure of such last-mentioned vessel beyond the jurisdiction of the United States.

“If any ship of war of a belligerent shall, after the time this notification takes effect, be found in or shall enter any port, harbor, roadstead, or waters subject to the jurisdiction of the United States such vessel shall not be permitted to remain in such port, harbor, roadstead, or waters more than twenty-four hours except in case of stress of weather or for delay in receiving supplies or repairs, or when detained by the United States; in any of which cases the authorities of the port or of the nearest port (as the case may be) shall require her to put to sea as soon as the cause of the delay is at an end, unless within the preceding twenty-four hours a vessel, whether ship of war or merchant ship, of an opposing belligerent shall have departed therefrom, in which case the time limit for the departure of such ship of war shall be extended so far as may be necessary to secure an interval of not less than twenty-four hours between such departure and that of any ship of war or merchant ship of an opposing belligerent which may have previously quit the same port, harbor, roadstead, or waters.

“Vessels used exclusively for scientific, religious, or philanthropic purposes are exempted from the foregoing provisions as to the length of time ship of war may remain in the ports, harbor, roadstead, or waters subject to the jurisdiction of the United States.

“The minimum number of ships of war belonging to a belligerent and its allies which may be in one of the ports, harbors, or roadsteads subject to the jurisdiction of the United States simultaneously shall be three.

“When ships of war of opposing belligerents are present simultaneously in the same port, harbor, roadstead, or waters subject to the jurisdiction of the United States the one entering first shall depart first unless she is in such condition as to warrant extension of her stay. In any case the ship which arrived later has the right to notify the other

through the competent local authority that within twenty-four hours she will leave such port, harbor, roadstead, or waters, the one first entering, however, having the right to depart within that time. If the one first entering leaves, the notifying ship must observe the prescribed interval of twenty-four hours. If a delay beyond twenty-four hours from the time of arrival is granted, the termination of the cause of delay will be considered the time of arrival in deciding the right of priority in departing.

“Vessels of a belligerent shall not be permitted to depart successively from any port, harbor, roadstead, or waters subject to the jurisdiction of the United States at such intervals as will delay the departure of a ship of war of any opposing belligerent from such ports, harbors, roadsteads, or waters for more than twenty-four hours beyond her desired time of sailing. If, however, the departure of several ships of war and merchant ships of opposing belligerents from the same port, harbor, roadstead, or waters is involved, the order of their departure therefrom shall be so arranged as to afford the opportunity of leaving alternately to the vessels of the opposing belligerents, and to cause the least detention consistent with the objects of this proclamation.

“All belligerent vessels shall refrain from use of their radio and signal apparatus while in the harbors, ports, roadsteads, or waters subject to the jurisdiction of the United States, except for calls of distress and communications connected with safe navigation or arrangements for the arrival of the vessel within, or departure from, such harbors, ports, roadsteads, or waters, or passage through such waters; provided that such communication will not be of direct material aid to the belligerent in the conduct of military operations against an opposing belligerent. The radio of belligerent merchant vessels may be sealed by the authorities of the United States, and such seal shall not be broken within the jurisdiction of the United States except by proper authority of the United States.

“No ship of war of a belligerent shall be permitted, while in any port, harbor, roadstead, or waters subject to the jurisdiction of the United States, to take in any supplies except provisions and such other things as may be requisite for the subsistence of her crew in amounts necessary to bring such supplies to her peace standard, and except such fuel, lubricants, and feed water only as may be sufficient, with that already on board, to carry such vessel, if without any sail power, to the nearest port of her own country; or in case a vessel is rigged to go under sail and may also be propelled by machinery, then half the quantity of fuel, lubricants, and feed water which she would be entitled to have on board, if dependent upon propelling machinery alone, and no fuel, lubricants, or feed water shall be again supplied to any such ship of war in the same or any other port, harbor, roadstead, or waters subject to the jurisdiction of the United States until after the expiration of three months from the time when such fuel, lubricants, and feed water may have been last supplied to her within waters subject to the jurisdiction of the United States. The amounts of fuel, lubricants, and feed water allowable under the above provisions shall be based on the economical speed of the vessel, plus an allowance of thirty per centum for eventualities.

“No ship of war of a belligerent shall be permitted, while in any port, harbor, roadstead, or waters subject to the jurisdiction of the United States, to make repairs beyond those that are essential to render the vessel seaworthy and which in no degree constitute an increase in her military strength. Repairs shall be made without delay. Damages which are found to have been produced by the enemy’s fire shall in no case be repaired.

“No ship of war of a belligerent shall effect repairs or receive fuel, lubricants, feed water, or provisions within the jurisdiction of the United States without written authorization of the proper authorities of the United States. Before such authorization will be issued, the commander of the vessel shall furnish to such authorities a written declaration, duly signed by such commander, stating the date, port, and amounts of supplies past received in jurisdiction of the United States, the amounts of fuel, lubricants, feed water, and provisions on board, the port to which the vessel is proceeding, the economical speed of the vessel, the rate of consumption of fuel, lubricants, and feed water at such speed, and the amount of each class of supplies desired. If repairs are desired, a similar declaration shall be furnished stating the cause of the damage and the nature of the repairs. In either case, a certificate shall be included to the effect that the desired services are in accord with the rules of the United States in that behalf.

“No agency of the United States Government shall, directly or indirectly, provide supplies nor effect repairs to a belligerent ship of war.

“No vessel of a belligerent shall exercise the right of search within the waters under the jurisdiction of the United States, nor shall prizes be taken by belligerent vessels within such waters. Subject to any applicable treaty provisions in force, prizes captured by belligerent vessels shall not enter any port, harbor, roadstead, or waters under the jurisdiction of the United States except in case of unseaworthiness, stress of weather, or want of fuel or provisions. When the cause has disappeared the prizes must leave immediately and if a prize captured by a belligerent vessel enters any port, harbor, roadstead, or waters subject to the jurisdiction of the United States for any other reason than on account of unseaworthiness, stress of weather, or want of fuel or provisions, or fails to leave as soon as the circumstances which justified the entrance are at an end, the prize with its officers and crew will be released and the prize crew will be interned. A belligerent prize court cannot be set up on territory subject to the jurisdiction of the United States or on a vessel in the ports, harbors, roadsteads, or waters subject to the jurisdiction of the United States.

“The provisions of this proclamation pertaining to ships of war shall apply equally to any vessel operating under public control for hostile or military purposes.

“And I do further declare and proclaim that the statutes and the treaties of the United States and the law of nations alike require that no person, within the territory and jurisdiction of the United States, shall take part\_ directly or indirectly, in the said war, but shall remain at peace with all of the said belligerents, and shall maintain a strict and impartial neutrality.

“And I do further declare and proclaim that the provisions of this proclamation shall apply to the Canal Zone except insofar as such provisions may be specifically modified by a proclamation or proclamations issued for the Canal Zone.

“And I do hereby enjoin all nationals of the United States, and all persons residing or being within the territory or jurisdiction of the United States, to observe the laws thereof, and to commit no act contrary to the provisions of the said statutes or treaties or in violation of the law of nations in that behalf.

“And I do hereby give notice that all nationals of the United States and others who may claim the protection of this Government who may misconduct themselves in the premises, will do so at their peril, and that they can in no wise obtain any protection from the Government of the United States against the consequences, of their misconduct.

“This proclamation shall continue. In full force, and effect unless and until modified, revoked, or otherwise terminated pursuant to law.

“In witness whereof, I have hereunto set my hand and caused the seal of the United States to be affixed.

“Done at the City of Washington this fifth day of September, in the year of our Lord one thousand nine hundred and thirty-nine, and of the Independence of the United States of America the one hundred and sixty-fourth.

Now, therefore, I, Manuel L. Quezon, President of the Philippines, do give publicity to said Proclamation and enjoin the strict observance of its provisions upon all citizens of the Philippines, and other persons residing or being therein.

In witness whereof, I have hereunto set my hand and caused the seal of the Commonwealth of the Philippines to be affixed.

REDUCING DURING A CERTAIN PERIOD THE IMPORT DUTY ON HUSKED NON-GLUTINOUS RICE FROM 5 TO 4 CENTAVOS PER KILO.

Having found after due investigation that, because of the crop shortage, the prevailing price of native rice has risen to higher levels which, if not checked at once, may bring distress to the people; and considering that a reasonable reduction in the duty now being levied on imported rice will make it possible to control the price of rice within reasonable levels, without harming the interests of palay producers; and as such a reduction will redound to the benefit of the public, particularly the consumers, I, Manuel L. Quezon, President of the Philippines, by virtue of the powers conferred upon me by the Constitution and by section three of Act Numbered Thirty-nine hundred and eighteen, entitled "An Act amending paragraphs two hundred and fifteen and two hundred and seventeen of the Act of Congress of August fifth, nineteen hundred and nine," and upon recommendation of the Secretary of Finance, do hereby reduce the import duty on rice to two dollars (four pesos) for every one hundred kilos, gross weight, of husked non-glutinous rice, effective only on the date of this proclamation.

**PROCLAMATION NO. 480**

DESIGNATING THURSDAY, THE 23RD DAY OF NOVEMBER, 1939,  
AS A DAY OF NATIONAL THANKSGIVING

For the information of the people of the Philippines, I hereby publish the following proclamation of the President of the United States setting aside, in accordance with custom, Thursday, November twenty-third, nineteen hundred and thirty-nine, as a day of general thanksgiving:

“BY THE PRESIDENT OF THE UNITED STATES OF  
AMERICA

“A PROCLAMATION

“I, Franklin D. Roosevelt, President of the United States of America, hereby designate Thursday, the 23rd of November, 1939, as a day of general thanksgiving.

“More than three centuries ago at the season of the gathering in of the harvest, the Pilgrims humbly paused in their work and gave thanks to God for the preservation of “their community and for the abundant yield of the soil. A century and a half later after the new nation had been formed and the charter of government, the Constitution of the Republic, had received the assent of the States, President Washington and his successors invited the people of the nation to lay down their tasks one day in the year and give thanks for the blessings that had been granted them by Divine Providence. It is fitting that we should continue this hallowed custom and select a day in 1939 to be dedicated to reverent thoughts of thanksgiving.

“Our nation has gone steadily forward in the application of democratic processes to economic and social problems. We have faced the specters of business depression, of unemployment and of widespread agricultural distress and our positive efforts to alleviate these conditions have met with heartening results. We have also been permitted to see the fruition of measures which we have undertaken in the realms of health, social welfare, and the conservation of resources.

As a nation we are deeply grateful that in a world of turmoil we are at peace with all countries and we specially rejoice in the strengthened bonds of our friendship with the other peoples of the western hemisphere.

“Let us on the day set aside for this purpose give thanks to the ruler of the universe for the strength which He has vouchsafed us to carry on our daily labors and for the hope that lives within us of the coming of a day when peace and the productive activities of peace shall reign on every continent.

“In witness whereof, I have hereunto set my hand and caused the seal of the United States of America to be affixed.

“Done at the City of Washington this thirty-first day of October, in the year of Our Lord nineteen hundred and thirty-nine, and of the independence of the United States of America the one hundred and sixty-fourth.

“FRANKLIN D. ROOSEVELT

“By the President:

“CORDELL HULL  
“*Secretary of State*”

I deem it proper that the day be also observed in the Philippines as in the United States and accordingly enjoin the inhabitants of the Philippines to offer thanks to Almighty God on that day for the bountiful blessings which He has bestowed upon our country and our people—the successful completion of another year of the Commonwealth, the abundance of crops, the absence of any disaster or calamity of great magnitude, the reign of peace and order and contentment throughout the land.

In witness whereof, I have hereunto-set my hand and caused the seal of the Commonwealth of the Philippines to be affixed.

Done at the City of Manila, this sixth day of November, in the year of Our Lord, nineteen hundred and thirty-nine, and of the Commonwealth of the Philippines, the fourth.

PROCLAIMING THE EXISTENCE OF A PUBLIC CALAMITY IN THE  
PROVINCE OF CAPIZ

Having found that the typhoon which passed through and devastated the Province of Capiz on November 19, 1939, has wrought havoc among the inhabitants thereof and has made unduly difficult their means of livelihood, I, Manuel L. Quezon, President of the Philippines, by virtue of the powers conferred upon me by section 1 of Act Numbered Four thousand one hundred and sixty-four, entitled "An Act to prevent the excessive increase in the price of certain prime necessities of life on the occasion of a public calamity, penalizing the violation thereof, and for other purposes," do hereby proclaim that a public calamity exists in the Province of Capiz as a result of said typhoon and do hereby declare in full force and effect therein for a period of not more than six months the provisions of Act Numbered Four thousand one hundred and sixty-four which prohibit and penalize the hoarding of the prime necessities of life and the holding of them for sale at prices twenty-five per cent or more higher than the prices which were current, in the different localities one month before the disaster occurred.

This proclamation shall not apply to such commodities of prime necessity as are covered by Executive Order Numbered Two hundred thirty-three and its amendments, except with respect to commodities for which a lower maximum price is fixed under the provisions of Act Numbered Four thousand one hundred and sixty-four, in which case, this maximum price shall govern, notwithstanding the provisions of Executive Order Numbered Two hundred and thirty-three and its amendments.

PUBLISHING PROCLAMATIONS AND REGULATIONS RELATING TO NEUTRALITY ISSUED BY THE PRESIDENT AND THE SECRETARY OF STATE OF THE UNITED STATES, RESPECTIVELY, ON NOVEMBER 4 AND NOVEMBER 6, 1939.

Whereas, the President of the United States did on November 4, 1939, issue the following proclamations:

1. "PROCLAMATION OF A STATE OF WAR BETWEEN GERMANY AND FRANCE; POLAND; AND THE UNITED KINGDOM, INDIA, AUSTRALIA, CANADA, NEW ZEALAND AND THE UNION OF SOUTH AFRICA.

"Whereas section 1 of the joint resolution of Congress approved November 4, 1939, provides in part as follows:

'That whenever the President, or the Congress by concurrent resolution, shall find that there exists a state of war between foreign states, and that it is necessary to promote the security or preserve the peace of the United States or to protect the lives of citizens of the United States, the President shall issue a proclamation naming the states involved; and he shall, from time to time, by proclamation, name other states as and when they may become involved in the war.'

"And whereas it is further provided by section 13 of the said joint resolution that

'The President may, from time to time, promulgate such rules and regulations, not inconsistent with law as may be necessary and proper to carry out any of the provisions of this joint resolution; and he may exercise any power or authority conferred on him by this joint resolution through such officer or officers or agency or agencies, as he shall direct.'

"Now, therefore, I, Franklin D. Roosevelt, President of the United States of America, acting under and by virtue of the authority conferred on me by the said joint resolution, do hereby proclaim that a state of war unhappily exists between Germany and France; Poland; and the United Kingdom, India, Australia, Canada, New Zealand and the Union of South Africa, and that it is necessary to promote the security and preserve the peace of the United States and to protect the lives of citizens of the United States.

"And I do hereby enjoin upon all officers of the United States, charged with the execution of the laws thereof, the utmost diligence in preventing violations of the said joint resolution and in bringing to trial and punishment any offenders against the same.

"And I do hereby delegate to the Secretary of State the power to exercise any power or authority conferred on me by the said joint resolution, as made effective by this my proclamation issued thereunder, which is not specifically delegated by Executive order to some other officer or agency of this Government, and the power to promulgate such rules and regulations not inconsistent with law as may be necessary and proper to carry out any of its provisions.

"And I do hereby revoke my proclamations Nos. 2349, 2354, and 2360 issued on September 5, 8, and 10, 1939, respectively, in regard to the export of arms, ammunition, and implements of war to France; Germany; Poland; and the United Kingdom, India, Australia and New Zealand; to the Union of South Africa; and to Canada.

2. “USE OF PORTS OR TERRITORIAL WATERS OF THE UNITED STATES BY SUBMARINES OF FOREIGN BELLIGERENT STATES.

“Whereas.; section 11 of the joint resolution approved November 4, 1939, provides:

” “Whenever during any war in which the United States is neutral, the President shall find that special restrictions placed on the use of the ports and territorial waters of the United States by the submarines or armed merchant vessels of a foreign state will serve to maintain peace between the United States and foreign states, or to protect the commercial interests of the United States and its citizens, or to promote the security of the United States, and shall make proclamation thereof, it shall thereafter be unlawful for any such submarine or armed merchant vessel to enter a port or the territorial waters of the United States or to depart therefrom, except under such conditions and subject to such limitations as the President may prescribe. Whenever, in his judgment, the conditions which have caused him to issue his proclamation have ceased to exist, he shall revoke his proclamation and the provisions of this section shall thereupon cease to apply, except as to offenses committed prior to such revocation.’

“Whereas there exists a state of war between Germany and France; Poland; and the United Kingdom, India, Australia, Canada, New Zealand, and the Union of South Africa;

“Whereas the United States of America is neutral in such war;

“Now, therefore, I, Franklin D. Roosevelt, President of the United States of America, acting under and by virtue of the authority, vested in me by the foregoing provision of section 11 of the joint resolution approved November 4, 1939, do by this proclamation find that special restrictions placed on the use of the ports and territorial waters of the United States, exclusive of the Canal Zone, by the submarines of a foreign belligerent state, both commercial submarines and submarines which are ships of war, will serve to maintain peace between the United States and foreign states, to protect the commercial interests of the United States and its citizens, and to promote the security of the United States;

“And I do further declare and proclaim that it shall hereafter be unlawful for any submarine of France; Germany; Poland; or the United Kingdom, India, Australia, Canada, New Zealand, or the Union of South Africa, to enter ports or territorial waters of the United States, exclusive of the Canal Zone, except submarines of the said belligerent states which are forced into such ports or territorial waters of the United States by *force majeure*; and in such cases of *force majeure*, only when such submarines enter ports or territorial waters of the United States while running on the surface with conning tower and superstructure above water and flying the flags of the foreign belligerent states of which they are vessels. Such submarines may depart from ports or territorial waters of the United States only while running on the surface with conning tower and superstructure above water and flying the flags of the foreign belligerent states of which they are vessels.

“And I do hereby enjoin upon all officers of the United States, charged with the execution of the laws thereof, the utmost diligence in preventing violations of the said joint resolution, and this my proclamation issued thereunder, and in bringing to trial and punishment any offenders against the same.

“And I do hereby revoke my Proclamation No. 2371 issued by me on October 18, 1939, in regard to the use of ports or territorial waters of the United States by submarines of foreign belligerent states.

“(b) Nothing in this section shall be construed to prohibit the solicitation or collection of funds and contributions to be used for medical aid and assistance, or for food and clothing to relieve human suffering, when such solicitation or collection of funds and contributions is made on behalf of and for use by any person or organization which is not acting for or on behalf of any such government, but all such solicitations and collections of funds and contributions shall be in accordance with and subject to such rules and regulations as may be prescribed.

“On November 4, 1939 the President issued a proclamation in respect to France; Germany; Poland; and the United Kingdom, India, Australia, Canada, New Zealand, and the Union of South Africa under the authority of section 1 of the said joint resolution, thereby making effective in respect to those countries the provisions of section 8 of the said joint resolution quoted above.

“Section 13 of the said joint resolution provides as follows:

” ‘SEC. 13. The President may, from time to time, promulgate such rules and regulations, not inconsistent with law as may be necessary and proper to carry out any of the provisions of this joint resolution; and he may exercise any power or authority conferred on him by this joint resolution through such officer or officers, or agency or agencies, as he shall direct.’

“The President’s proclamation of November 4, 1939, referred to above, issued pursuant to the provisions of section 1 of the above-mentioned joint resolution provides in part as follows:

” ‘And I do hereby delegate to the Secretary of State the power to exercise any power or authority conferred on me by the said joint resolution, as made effective by this my proclamation issued thereunder, which is not specifically delegated by Executive order to some other officer or agency of this Government, and the power to promulgate such rules and regulations not inconsistent with law as may be necessary and proper to carry out any of its provisions.’

“In pursuance of those provisions of the law and of the President’s proclamation of November 4, 1939, referred to above, the Secretary of State promulgates the following regulations.

“(1) The term ‘person’ as used herein and in the Act of November 4, 1939, includes a partnership, company, association, organization or corporation as well as a natural person.

“(2) Any person within the United States, its territories, insular possessions (including the Philippine Islands), the Canal Zone, and the District of Columbia who desires to engage in the solicitation or collection of contributions to be used for medical aid and assistance in France; Germany; Poland; or the United Kingdom, India, Australia, Canada, New Zealand, and the Union of South Africa, or for food and clothing to relieve human suffering in any of those countries, and who is not acting for or on behalf of the governments of France; Germany; Poland; or the United Kingdom, India, Australia, Canada, New Zealand, and the Union of South Africa, or any agent or instrumentality of such countries, shall register with the Secretary of State. To this end, such person shall make application in duplicate to the Secretary of State upon the form provided therefor.

“(3) Organizations or associations having chapters or affiliates shall list them in their application for registration and shall set forth therein the addresses of such chapters or affiliates. In case chapters or affiliates are formed after the registration of the parent organization, the parent should immediately inform the Secretary of State in order that its registration may be amended to name the new chapters or affiliates.

” (4) No person shall solicit or collect contributions without having in his possession a notice from the Secretary of State of acceptance of registration which has not been revoked; Provided, however, that nothing in this regulation shall be construed as requiring a duly authorized agent of a registrant to have in his possession a notice of acceptance of registration. Chapters or affiliates named in the parent organization’s registration may, of course, operate under this registration. Notices of acceptance of registration shall not be exhibited, used, or referred to, in any manner which might be construed as implying official endorsement of the persons engaged in the solicitation or collection of contributions.

“(5) All persons registered with the Secretary of State must maintain for his inspection or that of his duly authorized agent, complete records of all transactions in which the registrant engages.

“(6) Persons receiving notification of acceptance of registration shall submit to the Secretary of State not later than the tenth day of every month following the receipt of such notification sworn statements, in duplicate, on the form provided therefor setting forth fully the information called for therein.

“(7) The Secretary of State reserves the right to reject applications or to revoke registrations for failure on the part of the registrant to comply with the provisions or purposes of the law or of these regulations.

“(8) A registrant may act as an agent for the transmittal abroad of funds received by another registrant, but such funds shall not be accountable as contributions received by the transmitting registrant.

“(9) Any changes in the facts set forth in the registrant’s application for registration, such as change of address, of officers, or of means of distribution abroad, should be reported promptly to the Secretary of State in the form of a supplemental application, in duplicate, properly sworn to.

“(10) In view of the purposes and special status of ‘The American National Red Cross’ as set forth in Act of Congress approved January 5, 1905, entitled ‘An act “to incorporate the American National Red Cross’ (33 Stat. 599), and particularly in view of the fact that it is required by law to submit to the Secretary of War for audit ‘a full, complete, and itemized report of receipts and expenditures of whatever kind,’ so that the submission to the Secretary of State of reports of funds received and expended would constitute an unnecessary duplication, ‘The American National Red Cross’ is not required to conform to the provisions of these regulations.

“(11) No registration will be accepted until satisfactory evidence is presented to the Secretary of State that the applicant for registration has organized an active and responsible governing body which will serve without compensation, and which will exercise a satisfactory administrative control, and that the funds collected by the registrant will be handled by a competent and trustworthy treasurer.

“(12) No registration will be accepted if the means proposed to be used to solicit or collect contributions include the employment of solicitors on commission or any other commission method of raising money; the use of the ‘remit or return’ method of raising money by the sale of merchandise or tickets; the giving of entertainments for money-raising purposes if the estimated costs of such entertainments, including compensation, exceed 30 per cent of the gross proceeds, or any other wasteful or unethical method of soliciting contributions.

“(13) No registration will be accepted until the Secretary of State has been informed in writing by a responsible officer of the applicant for registration that he has read these regulations.

“(14) The Secretary will exercise the right reserved under regulation (7) to revoke any registration upon receipt of evidence which leads him to believe that the registrant has failed to maintain such a governing body as that described under regulation (11), has failed to employ such a treasurer as that described under regulation (11), has employed any of the methods for soliciting contributions set forth under regulation (12), has employed unethical methods of publicity, or has failed to attain a reasonable degree of efficiency in the conduct of operations.

“(15) The sworn statement to be submitted by registrants in accordance with regulation (6) shall be supplemented by such further information as the Secretary of State may deem necessary.

“(16) Valid registrations under the rules and regulations governing the solicitation and collection of contributions for use in belligerent countries promulgated September 5, 9, and 11, and October 4, 1939, pursuant to section 3 of the Neutrality Act of May 1, 1937, remain valid under these regulations.”

Now, therefore, I, Manuel L. Quezon, President of the Philippines, do give publicity to said proclamations and regulations and enjoin the strict observance of their provisions upon all citizens of the Philippines and other persons residing or being therein.

All proclamations or any provisions thereof issued by the President of the Philippines, publishing proclamations, executive orders, and rules and regulations issued by the President and the Secretary of State of the United States, which are inconsistent with the provisions of this proclamation are hereby revoked.

In witness whereof, I have hereunto set my hand and caused the seal of the Commonwealth of the Philippines to be affixed.

PROCLAIMING THE EXISTENCE OF A PUBLIC CALAMITY IN THE  
PROVINCE OF MARINDUQUE

Having found that the typhoon which passed through and devastated the province of Marinduque on December 2, 3, and 4, 1939, has wrought havoc among the inhabitants thereof and has made unduly difficult their means of livelihood, I, Manuel L. Quezon, President of the Philippines, by virtue of the powers conferred upon me by Section 1 of Act No. 4164, entitled "An Act to prevent the excessive increase in the price of certain prime necessities of life on the occasion of a public calamity, penalizing the violation thereof, and for other purposes," do hereby proclaim that a public calamity exists in the province of Marinduque as a result of said typhoon and do hereby declare in full force and effect therein for a period of not more than six months the provisions of Act No. 4164 which prohibit and penalize the hoarding of the prime necessities of life and the holding of them for sale at prices twenty-five per cent or more higher than the prices which were current in the different localities one month before the disaster occurred.

This proclamation shall not apply to such commodities of prime necessity as are covered by Executive Order No. 233 and its amendments, except with respect to commodities for which a lower maximum price is fixed under the provisions of Act No. 4164, in which case, this maximum price shall govern, notwithstanding the provisions of Executive Order No. 233 and its amendments.

“1. American nationals may not travel on any surface vessel or aircraft into or through any area which is or may be defined as a combat area unless they possess American passports which have been endorsed as valid, as hereinafter provided, for such travel by the Passport Division of the Department of State or an American Diplomatic or Consular officer abroad.

“2. Each such endorsement shall be restricted in validity to one specific journey into or through a combat area and shall not be valid for travel on a belligerent vessel unless transportation on a neutral vessel is not reasonably available.

“3. Endorsements valid for travel into or through a combat area may be placed on the passports of officers and employees of the United States, civil or military, and members of their families if the public service requires.

“4. Endorsements valid for travel into or through a combat area shall not be placed on the passports of other American nationals except in cases of imperative necessity and unless other routes of travel to destination are not reasonably available.

“5. These regulations are not applicable to the following American nationals who are hereby authorized, under the conditions stated, to travel into or through combat areas without being in possession of American passports endorsed as valid for such travel:

“(b) Officers and members of the crew of any American vessel which, by arrangement with the appropriate authorities of the Government of the United States, may be commissioned to proceed into or through a combat area in order to evacuate citizens of the United States who are in imminent danger to their lives as a result of combat operations incident to the present war.

“(c) Officers and members of the crew of any American vessel proceeding into or through a combat area under charter or other direction and control of the American Red Cross and under safe conduct granted by belligerent states.

PUBLISHING THE PROCLAMATIONS AND EXECUTIVE ORDER, AND THE ANNOUNCEMENTS, ALL RELATING TO NEUTRALITY, ISSUED ON APRIL 25, 1940, BY THE PRESIDENT AND THE SECRETARY OF STATE OF THE UNITED STATES, RESPECTIVELY.

Whereas the President of the United States did, on the 25th day of April, 1940, issue the following proclamations:

1."PROCLAMATION OF A STATE OF WAR BETWEEN  
GERMANY AND NORWAY

"Whereas section 1 of the joint resolution of Congress approved November 4, 1939, provides in part as follows:

"That whenever the President, or the Congress by concurrent resolution, shall find that there exists a state of war between foreign states, and that it is necessary to promote the security or preserve the peace of the United States or to protect the lives of citizens of the United States, the President shall issue a proclamation naming the states involved; and he shall, from time to time, by proclamation, name other states as and when they may become involved in the war.'

"And whereas it is further provided by section 13 of the said joint resolution that

"The President may, from time to time, promulgate such rules and regulations, not inconsistent with law as may be necessary and proper to carry out any of the provisions of this joint resolution; and he may exercise authority conferred on him by this joint resolution through such officer or officers or agency or agencies, as he shall direct.'

"Now, therefore, I Franklin D. Roosevelt, President of the United States of America, acting under and by virtue of the authority conferred on me by the said joint resolution, do hereby proclaim that a state of war unhappily exists between Germany and Norway, and that it is necessary to promote the security and peace of the United States and to protect the lives of citizens of the United States.

"And I do hereby enjoin upon all officers of the United States, charged with the execution of the roof, the utmost diligence in preventing violations of the said joint resolution and in bringing to trial and punishment any offenders against the same.

"And I do hereby delegate to the Secretary of State the power to exercise any power or authority conferred on me by the said joint resolution, as made effective by this my proclamation issued thereunder, which is not specifically delegated by Executive order to some other officer or agency of this Government, and the power to promulgate such rules and regulations not inconsistent with law as may be necessary and proper to carry out any of its provisions.

3. “USE OF PORTS OR TERRITORIAL WATERS OF THE UNITED STATES BY SUBMARINES OF  
FOREIGN BELLIGERENT STATES

“Whereas section 11 of the Joint Resolution approved November 4, 1939, provides:

“Whenever, during any war in which the United States is neutral, the President shall find that special restrictions placed on the use of the ports and territorial waters of the United States by the submarines or armed merchant vessels of a foreign state, will serve to maintain peace between the United States and foreign states, or to protect the commercial interests of the United States and its citizens, or to promote the security of the United States, and shall make proclamation thereof, it shall thereafter be unlawful for any such submarine or armed merchant vessel to enter a port or the territorial waters of the United States or to depart therefrom, except under such conditions and subject to such limitations as the President may prescribe. Whenever, in his judgment, the conditions which have caused him to issue his proclamation have ceased to exist, he shall revoke his proclamation and the provisions of this section shall thereupon cease to apply, except as to offenses committed prior to such revocation.’

**PROCLAMATION NO. 554**

PUBLISHING THE PROCLAMATIONS, EXECUTIVE ORDER, AND REGULATIONS ISSUED BY THE PRESIDENT OF THE UNITED STATES AT WASHINGTON, D. C., IN CONNECTION WITH THE NEUTRALITY OF THE UNITED STATES IN THE WAR BETWEEN GERMANY, BELGIUM, LUXEMBURG AND THE NETHERLANDS.

Whereas the President of the United States, on May 11, 1940, in order to preserve the neutrality of the United States and of its citizens, and of persons within its territories and jurisdiction, and to enforce its laws and treaties and in order that all persons, being warned of the general tenor of the laws and treaties of the United States in this behalf, and of the law of nations, may thus be prevented from any violation of the same, issued a proclamation to declare and proclaim that all of the provisions of his proclamation of September 5, 1939, proclaiming the neutrality of the United States in the war between Germany and France; Poland; and the United Kingdom, India, Australia and New Zealand apply equally in respect to Belgium, Luxemburg and the Netherlands;

Whereas the President of the United States, on May 11, 1940, issued an executive order prescribing that the provisions of his Executive Order No. 8233 of September 5, 1939, prescribing the regulations governing the enforcement of the neutrality of the United States in the war existing between Germany, on the one hand, and France; Poland; and the United Kingdom, India, Australia, and New Zealand, on the other hand, apply equally in respect to Belgium, Luxemburg and the Netherlands;

Whereas sections 1 and 13 of the Joint Resolution of Congress approved November 4, 1939, provides in part.

“That whenever the President, or the Congress by concurrent resolution, shall find that there exists a state of war between foreign states, and that it is necessary to promote the security or preserve the peace of the United States or to protect the lives of citizens of the United States, the President shall issue a proclamation naming the states involved; and he shall, from time to time, by proclamation, name other states as and when they may become involved in the war.

“The President may, from time to time, promulgate such rules and regulations, not inconsistent with law as may be necessary and proper to carry out any of the provisions of this joint resolution; and he may exercise any power or authority conferred on him by this joint resolution through such officer or officers, or agency or agencies, as he shall direct.”

and the President of the United States, in a proclamation, dated May 11, 1940, has pursuant to the foregoing provisions, and in order to promote the security and preserve the peace of the United States and to protect the lives of the citizens of the United States, declared and proclaimed that a state of war unhappily exists between Germany, on the one hand, and Belgium, Luxemburg and the Netherlands on the other hand, and enjoined upon all officers of the United States charged with the execution of the laws thereof the utmost diligence in preventing violations of the said joint resolution and bringing to trial and punishment any offenders against the same; and

Whereas section 11 of the Joint Resolution of Congress, approved November 4, 1939, provides:

“Whenever, during any war in which the United States is neutral, the President shall find that special restrictions placed on the use of the ports and territorial waters of the United States by the submarines or armed merchant vessels of a foreign state will serve to maintain peace between the United States and foreign states, or to protect the commercial interests of the United States and its citizens, or to promote the security of the United States, and shall make proclamation thereof, it shall thereafter be unlawful for any such submarine or armed merchant vessel to enter

a port or the territorial waters of the United States or to depart therefrom, except under such conditions and subject to such limitations as the President may prescribe. Whenever, in his judgment, the conditions which have caused him to issue his proclamation have ceased to exist, he shall revoke his proclamation and the provisions of this section shall thereupon cease to apply, except as to offenses committed prior to such revocation.”

and the President of the United States, in pursuance thereof, declared and proclaimed that the provisions of his proclamation of November 4, 1939, in regard to the use of the ports and territorial waters of the United States, exclusive of the Canal Zone, by the submarines of France, Germany, Poland and the United Kingdom; India, Australia, Canada, New Zealand and the Union of South Africa, shall also apply to the use of the ports and territorial waters of the United States, exclusive of the Canal Zone, by the submarines of Belgium, Luxemburg and the Netherlands;

Now, therefore, be it known that I, Manuel L. Quezon, President of the Philippines, have caused the said proclamations, executive order and regulations to be made public to the end that the same and every section and clause thereof may be observed and fulfilled with good faith by the Philippines and the inhabitants thereof.

In witness whereof, I have hereunto set my hand and caused the seal of the Commonwealth of the Philippines to be affixed.

**PROCLAMATION NO. 569**

DECLARING THE PERIOD BETWEEN INDEPENDENCE DAY, JULY 4, AND JULY 31, 1940, AS THE TIME FOR THE FIFTH COMMONWEALTH ROLL CALL OF THE RED CROSS IN THE PHILIPPINES.

Pursuant to the powers vested in me by law, I, Manuel L. Quezon, President of the Philippines, do hereby declare the period between Independence Day, July fourth, and July thirty-first, nineteen hundred and forty, the time for the Fifth Commonwealth Roll Call of the Red Cross in the Philippines.

Since the last roll call, the outbreak of war in Europe has spread suffering over a large part of the world. The United States and the Philippines have been blessed by Providence in that the shadow of miseries and sufferings, now afflicting millions of our fellow human beings, has not been cast upon us. In grateful appreciation of this good fortune, our Red Cross should be kept prepared to cooperate with the American Red Cross in extending a helping hand to the innocent victims of these tragic events.

The Philippine Red Cross, with its chapters in all provinces, carries on a daily program of practical services throughout the archipelago. During the past year, relief has been extended to the victims of public calamities of all kinds. In the field of public health, Red Cross nurses and dentists served over a million persons, principally children. Constructive assistance has been given to families whose economic life has been disrupted by the ravages of leprosy and to paroled lepers upon their return to community life. Hundreds have been trained in First Aid and Home Hygiene and Care of the Sick. The activities of the Red Cross have reached out into many other fields of public welfare. To continue and expand these services requires the moral and financial support of all our people.

I, therefore, call upon all citizens and residents of the Philippines to assist actively in the organization and conduct of the Roll Call, and to give generous and special support this year in order that the Red Cross may be able to meet all its obligations and cope with its responsibilities.

In witness whereof, I have hereunto set my hand and caused the seal of the Commonwealth of the Philippines to be affixed.

Done at the City of Manila, this twenty-fourth day of June, in the year of Our Lord, nineteen hundred and forty, and of the Commonwealth of the Philippines, the fifth.

ENJOINING ALL BRANCHES, SUBDIVISIONS, AGENCIES, AND INSTRUMENTALITIES OF THE COMMONWEALTH GOVERNMENT AND INHABITANTS OF THE PHILIPPINES TO EXTEND THEIR COOPERATION IN RENDERING THE NECESSARY AID TO THE REFUGEES FROM THE BRITISH COLONY OF HONGKONG.

Whereas, in view of the unsettled conditions in the British colony of Hongkong, residents in said place are seeking refuge in the Philippines; and

Whereas many of these refugees are women and children who find themselves in need of assistance;

Now, therefore, I, Manuel L. Quezon, President of the Philippines, by virtue of the powers vested in me by law, do hereby enjoin all branches, subdivisions, agencies, and instrumentalities of the Commonwealth Government and every inhabitant of the Philippines to cooperate in extending whatever aid may be necessary for the safety and care of these refugees.
